

LOCAL & PERSONAL

INTERSCHOLASTIC LEAGUE MEETING.

The Meet for the 22nd District Interscholastic League will be held at Uvalde, Friday and Saturday, April 24-25, 1931. Following last year's plan in Tennis, two Zones are formed. Teams from Edwards, Kinney, Medina, Real, Uvalde and Val Verde counties will meet on April 18th, in tournament. On the same day teams from Dimmit, Frio, LaSalle, Maverick, and Zavalla counties will meet in tournament. The place to be announced later. Each Zone will send the first and second place winners to the District Meet at Uvalde where preliminaries will be played beginning at 9:30, Friday morning the 24th. The finals will be played at 5 P. M. that afternoon.

Preliminaries in Track will be run at 2:30 Friday afternoon the 24th. The following events will be run:

100-yd. dash; 200-yd. dash; 440-yd. dash; and the high and low hurdles. All other track and field events will be held Saturday. Other events scheduled will be same as last year.

February 25, 1931.

Guy D. Dean,
General Director.

PARENT-TEACHER ASSOCIATION

The regular meeting of the Hondo Parent-Teacher Association will be held next Monday afternoon, March 9th, at the High School Auditorium. All reported a good time and are looking forward to the next meeting in Hondo.

WESTERN LINE-UP.

The Colonial Theatre announces they have only western pictures booked on Saturdays through the months of March and April, with the exception of April 25th. The pictures star Ken Maynard, Bob Steele, Rex Lease, and John Mack Brown. They also have talking Chimp comedies booked with these westerns, which come very highly recommended. Western fans should show their appreciation by attending them.

THE LEGISLATIVE MILL.

By Fred W. Davis.

The grade school pupils who presented the comic opera, "Jack and the Bean Stalk," Friday night in the High School Auditorium were unfortunate in having very threatening weather preceding their performance and therefore a very small crowd in attendance. Those present however enjoyed the evening's entertainment of song, music and amateur theatricals. The program and the training of the voices were all under the able supervision of Mr. Ed. Armstrong. The opera was given for the benefit of the library fund, for which a small but appreciated sum was realized.

Among those who attended the Epworth League Federation Sunday at Del Rio were Misses Thelma Wilson, Mary Lois Barnes, Hedwig Nester, Lucille Van Fleet, Dorothy Ann Eckhart, Ora Harlee and Elsie Buss and Messrs. George Isaac Wilson, Frank Rucker, Bru Miller, Jean Ulrich, Ernest Duderstadt and Durwood Stanley.

Mr. and Mrs. George Graschel moved to Hondo last week and are making their home with Mrs. Graschel's father, Mr. John Koch. Mr. Graschel and Mr. Robert Koch have taken charge of the Citizen's Motor Car Company garage recently purchased from August E. Weynand.

Mrs. Horace Bradley spent last week-end in San Antonio with her parents, Mr. and Mrs. James Bierschawale. Mr. Bradley, accompanied by James Horace and Ada Belle Carter, went to the city Sunday to bring her home.

Dr. and Mrs. O. B. Taylor and little son, Blanton, and Mrs. Irma Price and little grandson, Ivan Murphy, were guests of Mr. and Mrs. Robert De Montel above Castroville Sunday evening.

I am an agent for the McClain Monument Works of San Antonio. See me for Headstones and Monuments. H. J. Boehle, Dunlay, Texas.

Prof. W. N. Saathoff attended the meeting of the County Council of Parent-Teacher Associations at Shookville last Saturday.

LEAGUERS VISIT DEL RIO.

Several of the members of the New Fountain Epworth League motored to Del Rio early Sunday morning to attend the S. P. Union Meeting which was being held at that place. Rev. Cas. Nixon, pastor of the Methodist Church in Del Rio, preached a very impressive sermon on the subject "Crusading for the Best." The Leaguers were given dinner at the Bluebird Cafe.

At 1:30 P. M. the following program was rendered:

Topic: Crusading for Christ.
Leader, Miss Fisher of Knippa.
Pep Song, Leaguers.
Hymn 261.
Prelude, Pianist.
Scripture Reading.
Prayer.

Talk: "What is a Crusader?" by Luella Wiemers.

Talk: "Training for World Friendship" by Earnest Duderstadt.

Hymn 4.

League benediction.

Leaguers were present from Knippa, Uvalde, Hondo, New Fountain, Del Rio and Carta Valley. Those who attended from New Fountain were: Mr. and Mrs. Clarence Muennink, Mr. and Mrs. Clarence Schweers, Rev. E. W. Deckert, Mr. and Mrs. Ben Wiemers, Misses Erna Schweers, Luella Wiemers, Lillie Muennink, Minnie Wiemers, Irene and Nellie Muennink, Erna Wiemers and Messrs. Marvin Schweers, Milton and Edwin Wiemers, Frank and Harry Schweers, Wilbur Dechert, Marvin Wiemers, Wilkes Wiemers, Ervin Heyen, and Clifford Stiegler.

All reported a good time and are looking forward to the next meeting in Hondo.

W. M. S.

CALVARY GIVES PROGRAM.

The B. Y. P. U. of Calvary Baptist Church of San Antonio rendered a program here Sunday evening, March 1, at the Hondo Baptist Church. There were thirty-seven of Calvary's young people who came out to be with young people of our church.

The regular business meeting was called by the President, Miss Alice Esser. After several songs were sung, the Bible quiz was given by the Daily Bible Readings leader, Conrad Gardner. Sealed peanuts were passed around. Some contained questions which were answered and discussed. The following program was then given, directed by the group captain in charge, Mrs. Otto Dixon.

Scripture Reading; Mrs. Otto Dixon.

Introduction; Eunice Long.
Study the Best Book; William Knight.

Christian Living; Ava Embrey.

Christian Giving; Mary Busby.

The Christian's Time; Armor Lee Embrey.

Seek Knowledge Concerning the Church; Johnnie Keight.

Seek Knowledge Concerning Evangelism; Mrs. Harold Stein.

Scripture Reading; Johnnie Keight.

Solo, "Satisfied With Jesus"; Mrs. Olive Ward.

W. M. S.

The W. M. S. of the Baptist Church met at the home of Mrs. Jack Fusselman with Mrs. Jack Fusselman and Mrs. Jim Fusselman as joint hostesses.

Mrs. Cass Jones was leader for the afternoon, the topic, Measuring the Home Task, which was very interesting. Delicious refreshments were served the following: Mesdames Jones, Merrill, Hyatt, Woolls, Henry Crow, Dillon, Currington, Bedell, Meister, Beal, Schuehle, Mulcahy, J. C. Merriman, Palmer, McClendon and Misses Jerry Fusselman and Fannye Carle.

The W. M. S. will meet at the church every day this week to observe the Week of Prayer.

Russell Kothmann of San Antonio was a visitor here Sunday.

not sustained, so they removed him for incompetency.

The legislature is considering a resolution designed to make most all political officers appointive. You know big politicians get bored with having to bother with laymen who are supposed to pay the bills and keep their peace. If we will just elect a few and let them appoint all the other administrators we will be ruled by a horde of officials who are not responsible to the people for their jobs, and will therefore, not be responsive to their rights or wishes. The big chief not being allowed to make any promises about appointees before he is elected will, as a consequence, not be bound either. And he can't rely upon the machine responsible to him to keep him and themselves in office.

Two years ago, when this question had been given much publicity, I prepared the record of appointments and elections covering a period of twenty years in this state. As it was overwhelmingly in favor of elections, the associated press, which had given the other side so much publicity, would not carry the data.

There are many important measures before the legislature but none are so fundamental as your franchise. We had better keep the ballot. But how quickly the lessons of history lose their influence!

The Board of Regents of the University asked to have charge over legal affairs of the institution and to have ten thousand dollars a year appropriated for a full time attorney. To this the Attorney General of the State objected on two grounds. First, it encroached upon the constitutional rights of the Attorney General, and second, there is no need to pay some lawyer ten thousand dollars a year when one can be secured for four thousand dollars. We think the point is well taken. The truth is, not many would resign if salaries were materially reduced.

The house committee reported out favorably a resolution proposing a constitutional amendment abolishing the state advalorem tax. One of the objections to the resolution was, it would exempt the wealthy landholders as well as the poor ones, and wealthy tax dodgers would buy up large holdings. But the amendment would not exempt the advalorem tax for local purposes where it is the chief source of revenue. If, as one noted historian claims, we have followed the footsteps of ancient Rome in our urbanization, nothing, I fear, will attract capital to seek the soil. Rome reached the stage where people would not utilize the land as a gift. Just now, scarcely any one wants to own the soil because in most instances it is a liability.

An Important Message To The Businessman

DON'T GIVE A DOLLAR.

"Don't give a newspaper a dollar." Such is the advice spoken by a well-known merchant over the radio recently. He was directing his remarks to business men in small towns and cities. "Don't give the newspapers a dollar," he emphasized. "Instead, buy twice as much advertising as you think you can afford for a period of one year. Then watch your business grow."

"The newspaper," he said, "is an trick is turned. Try it.

COUNTY COUNCIL MEETS.

The County Council of P. T. A. for Medina County convened at the Shock School, Saturday, February 28 with an enthusiastic crowd in attendance. There were delegates from Vagabond Club, who produced a ten associations and about twenty-five teachers present.

An interesting program was presented, the music being supervised by Mrs. A. M. Patterson and several enlightening addresses, by J. H. Vor denbaum of Southwest Texas Teachers' College and by Mrs. Boswell, home demonstration agent of Frio County. Mr. Vor denbaum spoke on the importance and growing need of cooperation between parent and teacher. Mrs. Boswell, in her talk, stressed the need of better home conditions.

The Hondo P. T. A. was represented by its president, Mrs. R. W. Speece, and Mesdames Jack Fusselman and J. R. Chancey.

JUNIOR BRIDGE CLUB.

A charming party featuring early spring was the three table bridge given by Mrs. E. J. Leinweber, Tuesday afternoon in her home, for the members of the Junior Bridge Club, and several guests. Bowls of early bluebonnets were attractively placed throughout the home. Tallies were also suggestive of spring.

The hostess, assisted by her mother, Mrs. D. W. Short, served a savory lunch, which consisted of creamed chicken, molded perfection salad, hot rolls, olives, potato chips, fruit cake with whipped cream, and coffee.

Those present were Mesdames Garland Martin, Henry Merriman, Eugene Mofield, Elsie Worden, Jack Lacy, Richard Reily, Howard Short, O. B. Taylor, Horace Bradley, H. J. Meyer, Earl Boon, Ed Connevey and D. W. Short.

THE BRIDGETTES.

Misses Mary Ruth Wilson and Mary Emma Finger entertained the Bridlettes, at the home of the latter, Saturday evening. The green color scheme was very successfully carried out in the tables, table covers, favors and prizes.

After all of the guests had arrived, a salad course consisting of tuna salad, crackers, toasted cheese sandwiches and tea was served. Then several games of bridge were played. At the conclusion of these games, Miss Doris Windrow received a boudoir lamp for high and Miss Virginia Ulrich received lingerie for low.

Before the guests departed, grape juice and cake were served.

Those enjoying the evening were: Misses Bernice Speece, Bernice Chancy, Rosenia Taylor, Doris Windrow, Virginia Ulrich and Gen Brucks.

EASTER ARRIVALS ANNOUNCED.

For those who read this article, it is announced, that SUITS will be found priced as low as \$15.00. Suits with Extra trousers from \$19.50 to \$32.00. Yes they are all new ones. Easter is approaching and you are likely to find the suit you want at Jennings. A few College sport trousers from \$5.00 up.

BARBECUE AND ENTERTAINMENT.

There will be a public entertainment at the Upper Quihi School Saturday night March 14, 1931, at 7:00 o'clock. Admission to the entertainment will be free, but there will be an abundance of fine barbecue, pickles and coffee for sale on the grounds both before and after the program. The proceeds will be devoted to the benefit of the school. Come out and enjoy a pleasant evening, a good supper and help a deserving cause.

Bethlehem Lutheran church every Wednesday night at 7:45 o'clock P. M. during the Lenten season. A cordial invitation to attend these services is extended to all.

The Quihi Luther League is arranging a fine program to be rendered in the Lutheran church on the night of March 15. The following numbers are scheduled to be given: Several choice selections by the Quihi church choir under the directorship of Mr. Edwin Grell. A declamation by Miss Pauline Graff. Musical selections by Misses Alma Grell and Mae Saathoff. A fine selection by the Quihi Male Chorus led by Mr. Rolf Saathoff. A lecture by the pastor. An instrumental selection by Mrs. Arthur Grell. Select readings by Misses Emma Nienhofer, Miss Agnes Hartmann and Messrs. Alfred Neumann and Elmer Loessberg.

UNCLE ANDREW DON'T LIKE TO BATHE.

Say, Mandy, why should I bathe twice a week? It takes more water, soap and fuel to bathe twice a week than it does once a week. And besides I just don't need a bath that often. I don't care what the Joneses say or do, about their bathing we are ruining our selves trying to keep up with the Joneses now and we can't afford it and I am not going to keep it up any longer.

You want to know why I haven't got any money and can't pay our water bill. It is just a few things like this that keeps me broke. If we didn't bathe but once a week and didn't wash the car and water lot flowers we wouldn't have much of a water bill to pay.

No, we are all trying to look like we were rich. Most every family has one or two cars, one or two bath tubs, one radio, one telephone, and one washing machine and electric lights and a lot of other unnecessary things and bridge parties, picture shows, golf courses, and all those things cost money.

Mandy, don't you remember that for several years after we were married we bathed in a wash tub, of course it was awful unhandy and sloppy, but we didn't bathe often and just look at the soap and fuel and water we saved because it was unhandy.

Now you bathe every day in winter and twice a day in summer, and then go to some kind of a party. As far as I am concerned, I don't need so many baths. I don't get that dirty. All right Andy, you can quit bathing for all I care, and rot, she said.

OPPORTUNITY.

Do not say—
He is great
But not as great as I could be
Had I
His opportunity.
And do not say—
It's too late,
Had I known before—
I too could have been—but alas
No more!

But gayly say—
He is great
But I shall greater be
I too have
My opportunity.
And also say—
It's not too late
I knew not before—but I know
now
Greatness isn't when!

But how!
Opportunity is here
The time is now
Every day of every year
It's here to use
If you know—
How!

HEAD HURT?

WORK won't wait for a headache to wear off. Don't look for sympathy at such times, but get some Bayer Aspirin. It never fails.

Don't be a chronic sufferer from headaches, or any other pain. See a doctor and get at the cause. Meantime, don't play martyr. There's always quick comfort in Bayer Aspirin. It never does any harm. Isn't it foolish to suffer any needless pain? It may be only a simple headache, or it may be neuralgia or neuritis. Rheumatism, Lumbago. Bayer Aspirin is still the sensible thing to take. There is hardly any ache or pain these tablets can't relieve; they are a great comfort to women who suffer periodically;

they are always to be relied on for breaking up colds.

Buy the box that says Bayer, and has Genuine printed in red. Genuine Bayer Aspirin doesn't depress the heart. All druggists

YANCEY NEWS.

NEW ENGLAND: ITS HISTORICAL INTEREST.

By Joe Harvey Wilson
Providence, R. I.

This section of the United States has outstanding appeal to those who are interested in the history of our nation. Here were established many of the first settlements made by the various European peoples who came over in the early part of the seventeenth century. Many monuments and landmarks may be seen dedicated to the memory of those adventurers who undertook such dangerous missions. There are innumerable places one might mention that preserve the reminiscences of former days. For example, in the center of the city of Providence, through which a small river runs, there is a spot where Roger Williams is supposed to step out of his canoe when he first landed here after being banished from Massachusetts.

In speaking of the interesting historical points, we could hardly omit the name of Plymouth where the Pilgrims landed in 1620. A quaint little city is this place, in some respects reminding one of what he would expect a colonial settlement to resemble. There remain in Plymouth some colonial houses practically intact, and it is a treat to observe their structure.

Another thing I very much wanted to see is the old Elm Tree in Cambridge, Massachusetts, under which George Washington assumed control of the American troops at the outbreak of the Revolution.

Some few miles from Boston is a settlement known as Merry Mount. Here it was that the first Maypole celebration was held in America in 1627. Thomas Morton, an English trader, incurred the hatred of the Puritans of Massachusetts by initiating this "vulgar and immoral affair," as they called it, because he actually let some of the people dance around the maypole. Merry Mount is noted for this amusing incident.

Salem, Massachusetts, is usually referred to as the "witch town," for it was there that the supposed "witches" were tried for heresy by the severe and uncompromising Puritans, who virtually controlled all life in that colony for number of years. The ordinary method employed for the trial was throwing the victims in the water. If they came to the top they were guilty; otherwise innocent. The actual spot in which some of them were thrown was pointed out to me when I visited Salem. Even today some of the athletic teams representing this town are known by the cognomen of "Witches," a very applicable one.

A few of the above remarks aptly illustrate what I have heard called New England "Conservatism," which is still obvious on occasions. Stiff formality in speech, action, or dress often bores a person not accustomed to it to the degree used here, and it does exist here more than any place I know. To transgress the unwritten law is looked upon in a bad way, as many have found by actual experience. This does not mean that the people are not progressive; it simply means that they have set methods for doing certain things and these methods are supposed to be followed.

returned to the soil. If the crop remains are removed and burned it becomes doubly necessary to supply organic matter to the soil in the form of manure, or green manures grown specially for that purpose.

FOR SALE.

A 68-acre farm all in cultivation, three room house, barn, good well, located two miles north of court house, just across Hondo Creek. For price and terms on quick sale see SUTHERLAND BROTHERS, Castroville, Texas. 10-tf

ONLY A DOCTOR KNOWS WHAT A LAXATIVE SHOULD BE

Many insect pests of the vegetable garden find protection under boards, stakes and other loose material left in the garden during the winter. These should be cleaned up. The dead vines or dead leaves of the crop plants may harbor diseases and insects which will attack the crops the following year. As soon as the crop is removed all plant remains should be turned under deeply and thoroughly in order to check the development of certain insects and diseases. If a crop is known to have been badly infested by insects or diseases it is safer to remove the plant remains and burn them even though this involves a loss of organic matter which under ordinary conditions, should be

Danger lies in careless selection of laxatives! By taking the first thing that comes to mind when bad breath, headaches, dizziness, nausea, biliousness, gas on stomach and bowels, lack of appetite or energy warns of constipation, you risk forming the laxative habit.

Depend on a doctor's judgment in choosing your laxative. Here's one, made from the prescription of a specialist in bowel and stomach disorders. Its originator tried it in thousands of cases; found it safe for women, children and old folks; thoroughly effective for the most robust man. Today, Dr. Caldwell's Syrup Pepsi, as it is called, is the world's most popular laxative. It is composed of fresh herbs and other pure ingredients. You can get it, in generous bottles and ready for use, at any drugstore.

MRS. MILLER ENTERTAINS.

A delightful St. Patrick's bridge party was given Thursday of last week by Mrs. O. H. Miller, for her club, the Ladies' Bridge Club. A green and white color scheme was featured in all the appointments. In a spirited contest with the name of St. Patrick, Miss Bess Brucks came out winner and was presented an appropriate gift.

In the bridge scores, Mrs. Earl Starnes won high among the members, and Mrs. W. H. Smith won high among the guests. Mrs. O. B. Taylor cut high for the consolation prize.

The hostess served a delectable luncheon, consisting of cheese entree, fruit salad, saltines, olives, angel food cake and Russian tea. Miniature St. Patrick's hats containing green and white after-dinner mints were favors.

Those present were Mesdames Volney Boon, Elsie Worden, Eugene Moifield, O. B. Taylor, T. B. Knopp, R. W. Speece, Earl Starnes, F. H. Schweers, Alice Reinhart, Walter Rothe, L. E. Heath, Horace Bradley, Earl Boon, Ed. Connevey, W. H. Smith, M. I. Broxton, Charles Monkhouse, J. M. Finger, and Misses Bess and Lillian Brucks.

H. E. Haas, Attorney-at-Law, Surveyor's Office, Courthouse, Hondo, Texas. All legal matters carefully attended to, in all courts of Texas. Manager Medina County Abstract Company. Road Maps of Medina County, cloth, \$5; paper, \$3. tf

A note from W. F. Frerichs who
lives at Douglas, Arizona, says his
section has been having lots of rain
and he hopes we are getting our
share. So far seasons were never
better at this time of year, and let us
hope they continue favorable.

ST. JOHN'S SCHOOL PROGRAM.

The entertainment presented by
the pupils of St. John's Catholic
School Monday night, in the school
auditorium, drew an enthusiastic
crowd and netted a neat sum for the
benefit of the church.

The little tots were presented in
drills and song, the little girls, charm-
ing in Japanese kimonos with tiny
fans, dancing and singing in a
Japanese drill, and the small boys
picturesque in an action song and
soldier drill. Of more mature pre-
sentation were several delightful
songs and piano numbers by older
pupils. Entertaining dialogues and
two clever farces, "The Quack" fea-
turing the boys, and "My Aunt's
Heiress" by the girls presented the
older pupils in amusing characteriza-
tions which kept the audience in an
uproar of laughter. The program
opened with the sacred song, "Thou
Power Divine," and closed with the
patriotic air, "Star Spangled Ban-
ner."

The performance of the children
showed earnest endeavor and real
talent upon their part, and able
direction and guidance by the good
Sisters who trained them. More of
these programs should be sponsored
among the young people.

UNCLE SAM SHOULD START HIS
MONEY MILL.

Uncle Sam should start his print-
ing press grinding out his own
promises to pay in the form of legal
tender notes instead of asking Wall
Street to underwrite his Bonus Pay-
ments—for he is going to "need a
plenty heap o' dough."

Applications for loans under the
new law advancing bonus payments
to 50% of the face value of the cer-
tificates brought an aggregate of
\$8,000 from Hondo alone during the
first three days of its operation.
Press reports indicate an equal eager-
ness all over the country to secure
the loans.

TRADES DAY NEXT
WEDNESDAY.

Hondo's next Trades Day will be
held next Wednesday and at 3
o'clock three valuable prizes will be
given away to the patrons of Hondo
merchants. The prizes will be a
dairy sow, a sow and a pen of chick-
ens. No cash prizes will be given this
time, but the three prizes will be of
choice quality and those fortunate
enough to win them will have some-
thing valuable.

Ask your merchants for trades day
tickets with all of your purchases
and be on hand with them when the
prizes are given away, Wednesday,
March 11th, at 3 o'clock P. M.

We do Job Printing. Phone 127

SALES SERVICE
HONDO, TEXAS

WITH WHOM DO YOU WANT TO
TROT?

Mr. and Mrs. P. Jungman who
have spent several weeks in Austin
during the present session of the
Legislature were home the first of
the week while Mr. Jungman was
looking after his private business.

Mr. Jungman says that among
other things of importance for this
legislature to look after is the mat-
ter of redistricting the state for
legislative purposes. It is being plan-
ned to place Medina County in a
district comprised of Medina, Frio
and Atascosa counties. This will cut
Medina loose from her connection
now represented by A. P. Johnson of
Carrizo Springs, and put us in a dis-
trict with counties south and south-
east of us and now represented by
Mr. Jones of Jourdanton, Atascosa
County.

Both Messrs. Johnson and Mr.
Jones would like to hear from the
people of Medina County as to their
wishes in the matter, and interested
parties should write them at Austin.

WIENER ROAST.

The young people of the Baptist
Church, members of the B. Y. P. U.,
sponsored a "wiener" roast, Thursday
night, at Steigler's Crossing. The
group gathered about a large bonfire
where they roasted the "wiener" and
consumed them with the addition
of various trimmings of pickles, mustard
bread, and marshmallows. After an
astonishing number of wiener had
disappeared, the group sat around
the dying embers and enjoyed sev-
eral hours of singing.

Those present were Rev. and Mrs.
Merrill, Misses Gladys Fusselman,
Gladys Jones, Myrtice Master,
Lucille Van Fleet, Mary Lois Barnes
and Thelma Wilson, and Messrs.
Bradley Bailey, Carter Snooks, Bill
Ross, Glenn Jones, Lawrence Roth,
Jack Mask, B. C. Rucker

COLONIAL COVERINGS.

This column, "Colonial Coverings," has been initiated for the benefit of the theatre-goers who want to know "what's what" in the way of theatre news. Therefore each week this column will attempt to present the highlights of the coming features at the local theatre, the Colonial, so watch this column for news of your favorite stars and their pictures.

Mr. Jennings, manager, announces elsewhere in this paper that every Saturday for the next two months the feature picture will be westerns. Nuff said! Everyone knows the thrills, action, and love-making of the Western's heroes. This Saturday, handsome Rex Lease will be featured in "The Utah Kid," a thrilling evening's entertainment.

A comedy of errors in a beauty shop, "Reducing" coming to the Colonial Theatre, Sunday and Monday, permits Marie Dressler and Polly Moran to have as much fun with the over-weight game as they did with Wall Street in "Caught Short." "Reducing" finds "Pauline Roach," wealthy beauty parlor owner, inviting her sister, Marie, to bring her family for a New York visit. Laughs continue to mount when Marie goes into her sisters beauty parlor. These gaffaws are drawn together in a compact story of love episodes between two interesting couples, Anita Page and William Bakewell, Sally Eilers and William Collier, Jr. These two funsters, Marie and Polly, "make fat women thin—and thin women fat."

Gangster's bullets mix with high society in "Dance Fools, Dance" which opens at the Colonial Thursday night. Joan plays the part of a madcap society debutante who turns to newspaper work after falling into financial and romantic reverses. That dashing newcomer, Lester Vail, plays opposite Joan as the chap who took her love "on approval," but decided to keep it in the end. Included in the cast are Cliff Edwards, William Bakewell, William Holden, Clark Gable, Earl Foxe, Purnell B. Pratt, Hale Hamilton, Natalie Moorhead, Joan Marsh and Russell Hoppe. Don't forget Joan is magnificent in a bewildering array of costumes and her dance numbers will bring demands for encores.

MRS. RIDENOUR ENTERTAINS.

Mrs. J. W. Ridenour of Ingram gave a linen shower Wednesday, February 25th, at the home of Mrs. J. J. Sublett for Mrs. B. J. Sublett who will soon move into their beautiful new home, on the Ingram-Hunt road.

Dozens of beautiful gifts were presented.

A tiny house with shrubbery, beach blossoms and spring flowers adorned the table center piece. The dining room was illuminated with green candles. Cake, sandwiches and coffee were served to: Mrs. Earl McNealy, Mrs. E. J. Natcher, Mrs. A. W. Nichols, Mrs. Ed. Chipman, Mrs. Le Roy Fessenden, Mrs. Louis Surber, Miss Pearl Nichols, Mrs. L. A. Leinweber, Mrs. John Leinweber, Mrs. S. J. Smith, Mrs. Geo. Baldwin, Miss Mildred Baldwin, Mrs. Harry Crate, Mrs. H. L. Crate; Mrs. J. J. Sublett, Mrs. B. J. Sublett, Miss Louis Sublett, Mrs. D. Walsh of Hunt, Texas, Mrs. J. W. Ferguson, Mrs. P. W. Williams and Mrs. J. W. Ridenour.

A BIRTHDAY.

An enjoyable afternoon was spent last Sunday at the home of Mr. and Mrs. Chas. T. Wurzbach, it being Mr. Wurzbach's seventy-fourth birthday. In the dining room delicious refreshments were served. A large birthday cake formed the center piece of the table on which seventy-four candles were arranged in figures. A glass bowl of spring flowers in shades of yellow and white adorned the table.

The following were present: Mr.

and Mrs. Chas. T. Wurzbach, Mr. and Mrs. Edwin R. Wurzbach, Mrs. Otto W. Huegele, Mr. and Mrs. Joe, H. Steinle, Mr. and Mrs. Oscar J. Scheuhle, Mr. and Mrs. G. A. Mechler, Mr. and Mrs. Frank J. Wurzbach, Misses Hilda Wurzbach, Katy Wurzbach, Naomi Steinle, Norma Wurzbach, Clara Wurzbach, Ellyn Steinle and Melba Wurzbach, Messrs. Carl Steinle, Clarence Huegele and Allen Huegele.

INTEREST TO GOAT RAISERS.

Of interest to goat raisers of Medina County and of Texas, is the data released by General Motors, Inc., that ten and a third million square yards of mohair material were used by that corporation in 1930, and that 540,000 square yards were used in the month of January, 1931, by Chevrolet alone, for upholstery in the Chevrolet. Approximately one third of the mohair production is being absorbed in the General Motors Corporation.

These astonishing facts have been given us by Mr. Joe Dillon, local manager of the Chevrolet Company. These figures show the intimate relationship of modern business, and the mohair growers of Medina County who purchase Chevrolets receive their money back through the purchase of their Mohair by the car manufacturers.

FOR SALE.

Conn B flat tenor saxophone with fine case, slightly used. Excellent condition. Name your terms. \$75.00. Box 86, D'Hanis, Texas.

ST. PAUL'S LUTHERAN CHURCH, GOOD RESIDENCE FOR SALE.

Sunday School and Bible Class will begin at 9:30 A. M. The Sunday School superintendent and teachers make the attendance of this Sunday School interesting and profitable. All are cordially invited to come.

Divine service in the German language will be held in this church Sunday morning at 10:30 o'clock. All are cordially welcome at this and all services in this church.

It is hoped that a message from Rev. E. A. Sagebiel can be announced at the conclusion of this service as to whether or not he will accept the call given him by the congregation.

FOR SALE.

Almost new Delco Light Plant with new large batteries; installed and satisfaction guaranteed. This is a bargain for some one less than half price. Herman Weynard.

Springtime cuts for our advertisers. An artistic collection ready for your selection.

Why we spend \$2,000,000 to put CAMEL cigarettes in the new HUMIDOR PACK

WE have been in the tobacco business a long time down here at Winston-Salem and we take a lot of pride in the quality of the cigarettes we make.

While we have spent a good many million dollars advertising Camels, we've always held to the old fashioned idea that the thing that really counts is what we put into our cigarette and not what we say about it.

If we know anything about tobacco, and we think we do, Camels contain the choicest Turkish and the mellowest, ripest domestic leaves that money can buy.

In fact we have every reason to be proud of the quality of Camels as they come from the factory, but the remark of an old friend of ours from Denver some time ago emphasized a point that has been the problem of the cigarette industry for years.

As he inhaled the smoke from a Camel we gave him in our offices one morning, he sighed with very evident enjoyment and then asked jokingly, "What is this, a special blend reserved for Camel executives?"

"Certainly not," we told him. "This package of Camels was bought at the corner store this morning."

"Well," he said, "I've been a dyed in the wool Camel smoker for a good many years, but upon my soul I never got a cigarette as good as this in Denver. If you would give the rest of the world the kind of Camels you sell here in Winston-Salem, you ought to have all the cigarette business there is."

THAT statement simply emphasized again the cigarette industry's most important problem. The more we thought about it, the surer we were that he was dead right, and that somehow, something must be done.

Denver wasn't getting a fair break. Neither in fact was any other town. The only people who really knew how good Camels could be, were the folks right here in Winston-Salem.

That was due to a factor no cigarette manufacturer had ever been able to control.

Naturally there is no difference whatever in the quality

of the tobacco in Camels, whether you buy them in Winston-Salem, Denver or Timbuctoo. But up to now there has been a very real difference in the condition of the cigarettes by the time they reached the smoker.

The flavor and mildness of fine tobacco depend upon the retention of its natural, not added, moisture content which is prime at about ten per cent.

In spite of our great pains always to make sure Camels left the factory with just the right amount of natural moisture, no cigarette package had ever yet been designed that could prevent that precious moisture from drying out.

THERE are three things about a cigarette that can sting the tongue and unkindly burn the throat.

(1) **Cheap tobacco.**

(2) **Particles of peppery dust left in the tobacco because of inefficient cleaning methods.**

(3) **A parched dry condition of the tobacco due to loss of natural moisture by overheating or evaporation.**

Always certain of the quality of our tobaccos we had already made Camel a "dustless" cigarette by the use of a specially designed vacuum cleaning apparatus exclusive with our factory.

Now, if we could perfect a package that would actually act as a *humidor* and retain the natural moisture content, then Yuma, Arizona, could enjoy Camels as much as we do here at Winston-Salem.

We knew what we wanted. We tried many things. We asked the Pittsburgh Testing Laboratory to help us.

After many experiments and humidity tests covering all methods of packing cigarettes came the detailed report of which this is the net:

(A) **No existing cigarette package, including those wrapped in glassine paper or ordinary cellophane, gives anything like adequate protection against evaporation.**

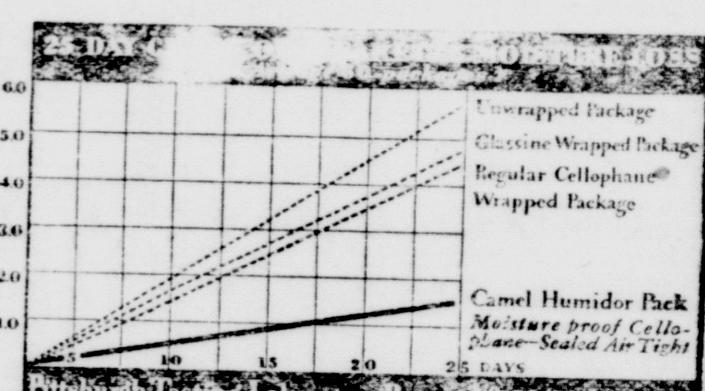

(B) **All cigarettes so packed tend to dry out rapidly from the day they are released from the factory.**

(C) **Only a waterproof material with a specially devised**

air-tight seal could give the desired protection.

(D) **This measure, while costly, could be relied on to keep Camels in prime condition for at least three months in any climate.**

If you have a technical bent, the graph below made by the Pittsburgh Testing Laboratory will show you the exact results of their exhaustive study.

Pittsburgh Testing Laboratory chart above graphically shows you that only the Camel Humidor Pack delivers cigarettes to you in prime condition

YOU may be sure we gave this report a lot of careful study. We checked it and re-checked it and then we went ahead. We tried this device and that. At last we met success. The air-tight wrapping involved the designing of special processes, special machines.

That costs a lot of money, more than \$2,000,000 the first year, but after you have tried Camels packed this modern new way we are sure you will agree it is a fine investment.

For some time now every Camel that has left our factory has gone out in this new Humidor Pack.

We have said nothing about it until now, to make sure your dealer would be able to supply you when the good news came out.

Camel smokers of course have already discovered that their favorite cigarette is better and milder now than ever before.

If you aren't a Camel smoker, try them just to see what a difference there really is between harsh, dried out tobacco and a properly conditioned cigarette.

You can feel the difference, you can hear the difference and you certainly can taste the difference.

Of course we're prejudiced.

We always have believed that Camel is the world's best cigarette.

Now we know it.

Just treat yourself to Camels in the new Humidor Pack and see if you don't agree.

R. J. REYNOLDS TOBACCO COMPANY
Winston-Salem, N. C.

FOR THE BEEKEEPER.

This is the time of the year to get ready, in planning your apiary work, so the bees will be in A. No. 1 condition when the honey flow comes, so supers can be tiered up on the colonies as fast as they are needed. All hives that bees have starved in should be thoroughly scraped out and cleaned, the wax refuse should be heated in boiling water and the clean wax pressed from same to be worked into comb foundation to be ready when needed.

A good, strong 4- to 6-strand barbed-wire fence around your apiaries will be a good investment, if you can afford it. It will keep live stock away from the hives. Live stock will often turn hives over and expose the bees and their honey to the robber bees.

On a recent trip to one of my apiaries, I found a certain brush that we bee-men call elbow brush coming into bloom and soon agarite will follow, so will poplars and some of the early weeds. Mistletoe has been blooming all through the winter and many individual bunches are still blooming, furnishing pollen for the honey bees.

H. D. Murry at Magnet, Texas, tells the beginners with bees to talk honey, and the use of honey and thereby create some demand for our incomparable product. That the per capita consumption of sugar is over 100 pounds while honey is only used to the extent of about 2 pounds per capita of our population.

I would suggest that the beekeepers themselves use honey on their table instead of glucose and margarine. How can they expect other people to buy from them an article they do not think enough of to eat themselves?

I have just read eight recipes for honey cake, cookies, rolls and candy in a beeper and each recipe calls for sugar in addition to honey. Why the sugar? Is the honey not sweet enough? I can see no reason for sugar in anything at all when honey is used. I have used no sugar in my food or drink for over three years and I can assure you that I am feeling better now than three years ago, although I used honey as sweetening at the table and in everything where sugar is generally called for. If you bee-men are afraid of your product how can you expect others to buy it and pay a big price for it?

A new use for the bees has been discovered at Luling, La., where brother Bohne has some bees which he says did not yet cause him much work taking off their honey; but, says friend Bohne, with a smile, any number of these bees have been stinging my wife's relations.

C. A. Sipple of Montana tells the world that Montana Bee-men will flood the markets with 500 carloads of white honey, and wipe out all the little beekeepers who make the big business for the supply houses. Is that all the little beekeepers are here for, to make business for the supply houses?

Geo. Bohne says in Beekeepers' Item that a certain Mr. Manley does doubt seriously if water white honey is ever equal to a good clover honey. Mr. Bohne as well as Mr. Manley never tasted real honey, the kind the majilla plant produces or else they would not mention clover honey. And majilla honey is water white.

I ruined a lot of my trade a few years ago by supplying it with clover honey that I then thought was fit to eat by majilla honey customers. I know better now, but the lesson I learned cost me many good honey customers.

Since many starved colonies have furnished us with quite a quantity of old combs, more or less web-worn eaten, fumigating with bisulphide of carbon has been done, and although worms were destroyed it did not prevent future infections of worms. We had the same experience with Para dichlorobenzine, although the Para is not explosive. Lately we salted our comb and wax refuse up like we would our bacon and ham, with very good results and practically no cost.

I am not yet ready to advise this as a safe method to use, but I will keep on testing out this method and learn more about it.

I would suggest my beekeeping readers to study up a beehive frame that can be easily made, with plain top and bottom bars and also end bars without punctures for wires, etc. The wax-worm needs no wires to swing about and bees work better and faster without such monkey business. The comb foundation is easier and quicker attached with a notched stick than any other way and the foundation stays better put. The only thing that suffers with my arrangement is the wax-worm, for he will find no grooves to hide in, but I can manage Apriaries without web worms.

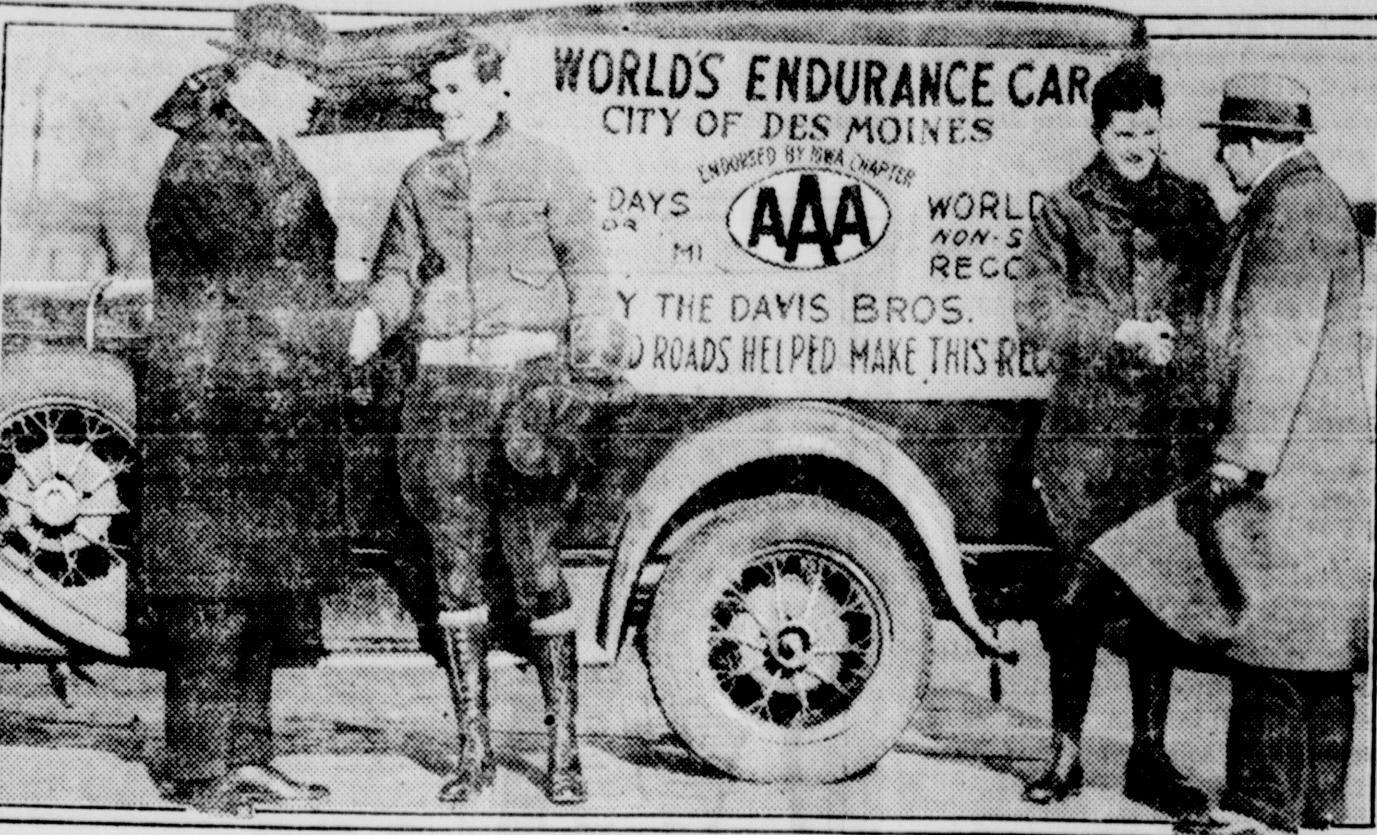

Once there was a busy bee
That improved a shining hour,
By stinging a poor guy on the nose
That stopped to smell a flower.

—E. M. Harwell, Phoenix, Ariz.

But, Mr. Harwell, why stop to smell at flowers? I should think that the beauty of the flower should be enough for any just ordinary guy can be, but the incident he is most without smelling at it and running away from the business-end of a bee or hornet.

Before closing I would advise the reader not to throw away extra money on the new fangled ideas of bee hive frames with foundation grooves, or double top bar or double bottom bar, providing cracks for the web-worms in case of death of the he hadn't put his coat down in the

Iowa Brothers Set New World's Record in Ford

Governor John Hammill of Iowa (left) and Walter Ferrell, executive secretary of the Iowa chapter of the American Automobile Association (extreme right), congratulating the Davis brothers on the establishment of a new world's non-motor, non-wheel stop automobile endurance record.

IOWA state officials and civic leaders witnessed the establishment of a new world's non-motor, non-wheel stop automobile endurance record recently, when Ralph and Rolland Davis, brothers, brought their Model A Ford to a halt at the east entrance of the state capitol in Des Moines after 2,775 hours and 46 minutes of continuous driving.

When Governor Hammill, standing with Walter Ferrell, executive secretary of the Iowa Chapter of the American Automobile Association, gave the signal to stop, the Ford had traveled a total of 47,138.3 miles over all sorts of roads in all sorts of weather and had exceeded by 33,650 miles

and more than 2,335 hours the American non-stop endurance record which, theretofore officially recognized, was made by a much heavier car under almost ideal conditions on the Indianapolis speedway last year. In the course of the endurance run, the car, known as "The City of Des Moines," covered practically the entire state of Iowa.

Engineers who examined the Ford at the conclusion of the run asserted that neither engine nor chassis showed evidence of the grueling strains to which they were subjected during the 116 days of continuous driving. Both apparently, according to the engineers, would have been good for another 50,000 miles or more.

GINGER DROP CAKES.

- * 1 cup dark honey
- * 1 cup sugar
- * 1 cup lard
- * 3/4 cup sweet milk
- * 1 egg
- * 1 tablespoonful of ginger
- * 1/2 teaspoonful salt
- * 1 tablespoonful soda in little hot water
- * Mix well, using flour enough to make the batter stiff enough to drop from spoon.

bee colony.

And do not worry about cake or other recipes that call for sugar in connection with honey in its preparation. And last but not least, eat honey yourself or forever keep your mouth shut when other people fail to fall over each other in a mad race to get to your honey.

LOUIS BIEDIGER,

SET OF SHORT CLOTHES FOR INFANTS

6354. This dainty wardrobe comprises a Dress with gathered fullness at neck and sleeve edges. Nainsook, awn, crepe, crepe de chine or China silk are nice for this model. A simple Coat slightly double breasted finished with a comfortable collar, and with one piece sleeves trimmed with a straight turned cuff. Faille, corduroy, linen or crepe de chine could be used for the Coat. A neat and easy to make Cap is supplied with his Set. This Cap may be of the same material as the coat, or of fine awn, mull or crepe de chene. Comfy Drawers and a Petticoat are also furnished. These may be made of long cloth or cambric, and trimmed with a narrow ruffle or lace edging. A serviceable Night Gown is shown in this assortment, nice for cambric, flannel, crepe or batiste. Creeper Rompers complete the list of this seven desirable and practical garments.

Designed in One size for Infants. The Dress requires 1 1/4 yard of material. The Rompers 1 yard. The Cap 1/4 yard. The Drawers 5/8 yard. The Night Dress 1 1/8 yard. The Petticoat 5/8 yard and the Coat 1 1/8 all of 36 inch material. Price 15c.

HISTORICAL NONSENSE.

Sir Walter Raleigh

From the Owl.

Everyone knows that Sir Walter Raleigh discovered how good a pipe can be, but the incident he is most famous for is that coat stunt he once beat up against the business-end of a bee or hornet.

Walter was an Englishman who lived in London. He couldn't help being an Englishman, but he could have lived in a different town and it wouldn't have been necessary for him to get his coat dirtied up. Yet if he hadn't put his coat down in the

The New Ford has more than twenty ball and roller bearings.

EVIDENCE of the high quality built into the new Ford is the extensive use of ball and roller bearings. There are more than twenty in all—an unusually large number. Each bearing is adequate in size and carefully selected for the work it has to do.

At some points in the Ford chassis you will find ball bearings. At others, roller bearings are used regardless of their higher cost. The deciding factor is the performance of the car.

The extensive use of ball and roller bearings in the new Ford insures smoother operation, saves gasoline, increases speed and power, gives quicker pick-up, decreases noise, and gives greater reliability and longer life to vital moving parts.

Other outstanding features that make the new Ford a value far above the price are the Triplex shatter-proof glass windshield, silent, fully enclosed four-wheel brakes, four Houdaille double-acting hydraulic shock absorbers, aluminum pistons, chrome silicon alloy valves, three-quarter floating rear axle, Rustless Steel, the extensive use of fine steel forgings, and unusual accuracy in manufacturing.

How One Woman Lost 20 Pounds of Fat

LOST HER DOUBLE CHIN
LOST HER PROMINENT HIPS
LOST HER SLUGGISHNESS
Gained Physical Vigor
Gained in Vivaciousness
Gained a Shapely Figure

If you're fat—remove the cause! KRUSCHEN SALTS contain the 6 mineral salts your body organs, glands and nerves should have to function properly.

When your vital organs fail to perform their work correctly—your bowels and kidneys can't throw off that waste material—before you realize it—you are growing hideously fat!

Take half a teaspoon of KRUSCHEN SALTS in a glass of hot water

every morning—cut out pastry and fatty meats—go light on potato butter, cream and sugar—in 3 weeks get on the scales and note how many pounds of fat have vanished.

Notice also that you have gained energy—your skin is clearer—your eyes sparkle with glorious health—your body organs, glands and nerves should have to person a joyous surprise.

Get an 85c bottle of KRUSCHEN SALTS at W. H. Windrow's (this weeks). If this first bottle does not convince you this is the easiest, safest and surest way to lose fat—if you don't feel a superb improvement—gloriously alive—your money gladly turned.

Free to High School Students

High School students who can give good reference will be given from now until their present term of school closes, free lessons in the Famous Byrne Simplified Short-hand. These lessons are given through our Home Study Department absolutely free. The Byrne Simplified Short-hand is the most simple, legible and rapid shorthand in use. There are over fifty-thousand writers of this famous reporting system.

Only "run of paper" position guaranteed.

More Federal Buildings

Under the new appropriation bill for Federal buildings Texas will secure new buildings at the following places:

- Atlanta, \$65,000; Beaumont, \$680,000; Big Spring, \$165,000; Breckenridge, \$140,000; Cisco, \$130,000; Crockett, \$85,000; Galveston, Immigration Station \$375,000; Georgetown, \$80,000; Harlingen, \$170,000; Jacksonville, \$135,000; McAllen, \$135,000; Memphis, \$80,000; Pampa, \$180,000; San Benito, \$125,000; Seguin, \$85,000; Stephenville, \$90,000; Tyler, \$335,000.

Remembers Goliad

The Texas senate has accepted the gift of 207 acres of land at Goliad to be converted into a State park as a memorial to the heroes who gave their lives at Goliad for the independence of Texas. It is recalled that it was at Goliad that the first declaration of Texas independence was signed December 22, 1835. Texas is slowly paving the way for a suitable celebration of the first 100 years of Texas independence and prosperity, and it is not likely that in that celebration Goliad will be forgotten.

Buy Sewer System

San Marcos has bought the city's sewer system from private owners for \$40,000 and will extend it to meet present requirements. San Marcos also owns its water system, having bought that in 1928. The city is rapidly becoming one of the most attractive resort towns of the State, and is proud to be known as an ideal "home city."

Raymondville Likes Onions

Raymondville is willing to let Carrizo Springs have its Strawberry Festival, Cuero its Turkey Trot, and other towns any special celebrations they may wish just so they do not interfere with Raymondville's own "Onion Day Fiesta," which has attained a state-wide reputation. The dates for the third fiesta are March 26-28, which will be celebrated with an onion cavalcade, three brass bands, carnivals, rodeos, onion queens, onion banquets, confetti and other "fixins." Raymondville finds it pays to be distinctive in its celebrations.

Getting Out of Mud

A number of years ago Bell county spent nearly \$2,000,000 for gravel and other kinds of temporary roads and now finds itself almost without roads of a kind adapted to modern uses. The gravel has gone from most of the roads and the county is back in the mud. Finding that the town is losing much of its valuable trade to other places with good roads to them, Temple citizens have started a movement to spend another \$2,000,000 for a system of roads that will stand the wear of present day usage.

Houston County Roads

Houston county, Crockett the county seat, has voted \$1,450,000 in bonds for building 65 miles of concrete roads, 58 miles of all-weather type and topping and 18 miles of gravel roads, along with a large mileage in lateral roads. Texans in other parts of the State who may have thought that part of Texas non-progressive, have another "think coming." They should drive over and see what East Texas is doing and then profit by what they see.

Live-At-Home Campaigns

According to a survey made by the Dallas News, 140 counties in Texas will make crop diversification and "Live-At-Home" the main objectives for 1931. Nothing better could be done to avoid any possibility of a repetition of the reverses of 1930. In practically every county where there are a county farm and a home demonstration agent some such purposes as these are being worked out and the people are showing more disposition to co-operate than ever before.

Money From Minor Crops

Twenty-one crops of a kind commonly designated as "minor crops," brought Texas a revenue of \$20,500,000 last year. Tomatoes led with about one-fourth of the total. Cabbage came next and spinach third. Onions, cucumbers, snapbeans and

watermelons were grown in excess of \$1,000,000 value each. There was over-production (or else under-consumption) of some of these, making prices too low for profits on late production, but most prices were fairly satisfactory.

Holds Fire Record

Crystal City holds the State fire record for last year, having gone through the year without a cent of fire loss. The city has a population of 6,600 and has but meager equipment for its volunteer fire department. Efforts are to be made to standardize the equipment.

Marketing Association

Clyde farmers have found from experience that has been rather costly that, however much their farms may produce, farming suffers unless the crops are marketed to advantage, so they are organizing an association for marketing their sandy land products.

UPPER QUIHI NOTES.

If you possess an old carpet that is whole but too shabby for use, clean it thoroughly and tack it down smoothly on the floor; then make a good thick boiled starch of flour and water, rub a coat of starch on the carpet with a white-wash brush. When the starch is thoroughly dry give it a coat of paint, some color which will harmonize with your kitchen. When the paint is dry give it another coat and you will have a cheap durable floor covering which may be used in the kitchen, or any other room in the house where lino-

leum can be used to advantage. If the carpet is given a fresh coat of paint once a year it will last for many years.

Mr. and Mrs. C. H. Fous visited relatives in Bader Settlement Saturday.

Milton Oefinger and a boy friend of San Antonio, visited homefolks and friends here Saturday and Sunday.

Mr. and Mrs. Cornelius Haby, Miss Alma Saathoff from here and Oscar Haby of Rio Medina spent Sunday with Mr. and Mrs. Andrew Oefinger and family.

Mr. and Mrs. Edgar Balzen, spent Sunday with Mrs. Balzen's parents, Mr. and Mrs. Emil Kauffman at Red Wing.

PAINT ADDS YEARS OF SERVICE TO OLD CARPET.

By Juliette Frazier.

If you possess an old carpet that is whole but too shabby for use, clean it thoroughly and tack it down smoothly on the floor; then make a good thick boiled starch of flour and water, rub a coat of starch on the carpet with a white-wash brush.

When the starch is thoroughly dry give it a coat of paint, some color which will harmonize with your kitchen. When the paint is dry give it another coat and you will have a cheap durable floor covering which may be used in the kitchen, or any other room in the house where lino-

leum can be used to advantage. If the carpet is given a fresh coat of paint once a year it will last for many years.

Small pieces of old carpet can be made into very useful rugs by cutting them the desired size and shape and applying the same treatment as to the carpet. A border about four or five inches wide, all around the edges of the rug may be painted a contrasting color; this will add to its attractiveness.

For several years home demonstration agents have been reviving home industries among country women as a means of getting funds for improving home standards of living, and to give to these women a measure of financial independence. Some one has said that women didn't make five cents an hour for their time at such work. That is open to question, but the women can say "so's your old man!", for the Southern cotton farmer is said to have averaged only 32 cents daily for his time last year.

GRAB THIS FARM.

A 371-acre farm three miles west of Yancey on good road, good 2-room house, barn, garage, etc., and 160 acres in cultivation. Two good wells equipped with pumps and storage tank sufficient to irrigate considerable tract. Buy this farm and be prepared for all kinds of seasons. Only \$35.00 per acre and terms easily arranged. CHEVROLET DEALERS TO HOLD FERTILE SOILS ARE NEEDED CONVENTION.

Local participation in a move to bring business back to the level of previous years is to get under way March 11th, when Mr. Joe Dillon, local Chevrolet Dealer leaves for San Antonio with four members of his organization to attend a novel retail sales convention being held there for all Chevrolet retail salesmen in the San Antonio Zone.

More than 400 are expected to attend the convention, which opens with a luncheon at the Plaza Hotel and consists of a full afternoon of instruction at the San Pedro Play House. A feature of the luncheon will be the installation of officers of the "100-Car Club," a star salesman's honorary organization.

A carload of special scenery, and other theatrical equipment including talking pictures has been engaged to put on the presentation which is said to be the first and largest of its kind to be staged in the automobile industry for retail salesmen.

Mr. Felix Doran, Jr., Chevrolet Regional Manager with headquarters at Dallas, Texas, Mr. F. H. Hull, Zone Manager, other members of the Region and Zone staffs, and a factory representative from Detroit will conduct the meeting, which will be attended by dealers and sales managers, as well as retail salesmen.

Business sessions in the convention will take the form of playlets, in which the factory officials will take the part of actors and show by actual demonstration the correct procedure in any given situation. Instead of lectures, the class of dealers and salesmen will have points under discussion emphasized by seeing them presented in a dramatic and effective manner. Every phase of the automobile industry as it affects the retail salesmen will be included on the program.

The meeting is one of 52 to be held throughout the United States during March.

"The object of the meetings," Mr. Dillon explained, "is to give our retail salesmen a better appreciation of our product which is better and priced lower today than at any time in our history, and to make them better and more energetic salesmen, which in turn will add to the good will of our business and our product, as well as increase our volume."

"By participating in this meeting we feel that we will be better equipped than ever to get a larger volume of business from this territory than it yielded last year. Already business is picking up, and by taking advantage of every extra means of adding to our volume, we hope to make this spring one of the best years that Chevrolet ever had."

"The move of our local field officials" he continued, "ties in with the aggressive policies adopted by the Chevrolet Motor Company to bring back business to normal. The automobile industry is the largest user of raw materials in the world, and by bringing out the 1931 Chevrolet nearly two months ahead of the annual schedule, the company was able to put mills to work which had lain idle for months, and to start the ball of general activity to rolling. The iron mimer, steel worker, cotton picker and mill hand, the lumberman and glass blower, and the many other employees identified with industries which lean heavily on the automobile to use their products, felt the effects of the early announcement in greater employment and increased output."

By L. A. Hawkins.

When we deal with soil we are dealing with the fundamental asset to agriculture. It takes two things to make a great country—fertile soil and good people.

We may have a fertile soil but if we have shiftless, inefficient people living on it, we are not going to make much out of it. No matter how good people we may have, if the soil is not productive we cannot make a great country.

Even after we have walked over it all our lives, the soil has not become of great importance to many of us. The land we are tilling today is not the same as it was a hundred years ago. It is constantly changing and unfortunately the most of it is getting poorer with continued use.

The soil is not an inert mass but is the scene of life and activity. Soil that is inactive is unproductive. Circulation of air and water, absorption of heat, evaporation, decay of organic matter, breaking down of soil particles and the activities of countless minute organisms all take place in fertile soil.

The fertility of the land is judged by its power to produce crops when climatic conditions are favorable. It is determined largely by the texture of the soil, its supply of available plant food and the moisture content.

The texture of the soil is its physical condition as to being mellow, cloudy or lumpy. It also deals with the structure of the soil particles and their relation to each other. Plants cannot get a good start in hard lumpy soil.

In addition to mineral matter, all fertile soils contain decayed organic matter or humus, which holds moisture, makes the soil loose, warm and mellow. It gives life to the soil, makes a home for bacteria, prevents washing and baking of the soil and makes the soil productive.

Soils with no or little humus are unproductive and hard to handle. Even though they may be rich in phosphorus, potash and other plant foods that will not produce well with no humus. Much of the plant food in the soil is locked up and unavailable for plants until the decomposition of organic matter takes place and the resultant acids act upon the soil particles.

Were the plant foods all available they would have leached out or been used up long ago.

Through intelligent farming some plant food is made available from year to year.

The longer plants are grown on soil, providing they are legume plants and turned under, the richer the soil becomes.

In building the soil, nature has centuries at her disposal, while man has but a few years. He must work rapidly and intelligently with as few mistakes as possible.

Soil should be made so it will grow crops continuously. If the humus is allowed to become burned out its crop producing power is lost until the organic content is restored.

Humus is supplied by roots and stubble, other crop residues, green manure crops, and barnyard manure.

Crop rotation is necessary to maintain the humus content of our soils.

Planting under leguminous cover crops is profitable on soils at all short in humus. When soils are fairly productive crops may be fed to produce, live stock products and the manure put back on the soil to help maintain the humus.

Soils must have humus from one source or another if they are expected to produce good crops.

FREE GARAGING.

Those intending to operate tourist homes next summer and to give free garage space to their guests should secure a neatly printed sign stating that Scotchmen will not be allowed to sleep in their cars.

You write letters occasionally Why not use printed stationery? We will furnish you a box of 200 note sheets and 100 envelopes, all neatly printed with your name and address for only \$1.00. You can't beat it! Call and let us fix you up, or mail a dollar bill and we will mail them to you post paid anywhere within the radius of this paper's circulation. Address The Fletcher Davis' Print Shop, Hondo, Texas

Every German-language speaking family should have a German newspaper. The Freie Presse fuer Texas is the only semi-weekly newspaper printed in the German language published in Texas. It is sold at the low price of \$3.00 per year and by remitting for it, either new or renewal subscription, through this office you can get both the Freie Presse and Farming a whole year for the price of the Freie Presse alone. Send your \$3.00 today to Farming, Hondo.

You will find it profitable to take advantage of FARMING'S club offers in ordering your papers and magazines.

The hard part of a school teacher's job is trying to reform the language of small boys who listen to Amos 'n' Andy.

**DR. MILES'
Aspir-Mint**

Suffering? There's a new, pleasant mint-flavored tablet that relieves ordinary headache and neuralgia, muscular pains and functional pains. It's excellent for Coryza —cold in the head—and for the sore throat that often accompanies it.

Physicians have been writing prescriptions for a similar combination for years.

The Dr. Miles Medical Company has standardized this well balanced formula and is glad to offer it in the form of a stable, palatable, mint-flavored tablet for home use.

YOU'LL GET RELIEF OR YOUR MONEY BACK

dy, apples and hot chocolate was the ashes were thrown out the particals of glass were unnoticed. Since then I have made it a point never to throw ashes anywhere in the place where poultry may possibly find access, without first carefully sifting the ashes.

WHY BRAG ABOUT IT?

From the Owl.
Do you like to tell about past performances?

Do you constantly talk about your self?

Do you always belittle the other fellow's ability?

Then you need to be cured of this malady with which you are afflicted. You need a remedy for your conceit, and you will have to be your own doctor?

Naturally you are proud of the success you have made during your career, but other people soon grow tired of hearing you tell about it. Don't brag about your own cleverness! You are fooling no one except yourself, and you are wasting your most valuable asset, time!

There are thousands who have accomplished more than you; so what have you to brag about? You would suffer by comparison with some of the people who listen to your conceited chatter about what you have done!

Cut the bragging. It's bad stuff and it's sure fire boomerang! It will knock you out if you keep at it!

Don't belittle the other fellow's ability simply because he doesn't slap himself on the back and rave about the way you do. His record might make you sit up and take notice!

Remember, there are others on this side of the earth besides yourself, and many of them are silently plowing their way to success by hard work and faithfulness to their duties, while you are wasting your breath telling everyone how good you are!

If you must talk, pick out a subject more interesting than yourself! Let the other fellow sing your praises; he will be ready and willing to do so as soon as you accomplish something really worth while!

It will pay you to watch our clubbing rates. We can sometimes make you substantial savings on the subscription price of your paper and magazines and at the same time, by subscribing through this office, you can help us extend the circulation of Farming. In this way we both profit.

For Rent: Two-room apartment; furnished or unfurnished; private entrance; hot and cold water. Also rooms by day, week or month. Good home-cooked meals at all times. Rates reasonable. Highway Hotel, Mrs. E. Schaevers, Proprietress.

Let us lay your floor with Armstrong Accolac Linoleum. LEINWEBERS.

**Let's Keep the Smiles
—But Discipline
The Wrinkles**

TODAY I want to tell you about a simple treatment for smoothing out those droopy little lines that will creep in around one's mouth.

Of course, the skin first must be thoroughly cleaned. To do this easily and quickly, just spread cleansing cream up over your face. Then remove this cream with soft cleansing tissues, and pat skin toner over your face. This banishes all traces of the cream and gently closes the pores again.

Next, smooth tissue cream on your face, especially around the nose and mouth. If your skin is unusually dry, substitute skin food for the cream. Now, with your face well covered with cream, dip the finger tips into muscle oil. Placing the nail to the index finger of each hand at the corners of your upper lip, gently smooth outward toward your cheeks and repeat until the skin feels toned and stimulated. As your fingers stroke across those little mouth wrinkles, the rich muscle oil acts like a host of fairy fingers, patting and smoothing your face; and the tissue cream or skin food blends sue cream or skin food to soften the with the natural oils to soften the skin.

If your skin is not too oily, take this treatment just before going to bed, and leave the excess cream and oil on your face all night.
